RESOURCES

Useful resources are available to managing authorities (MA) and financial instrument stakeholders from different providers. They include:

- **EC regulatory guidance** – The European Commission provides guidance in the form of working documents for colleagues and bodies involved in the monitoring, control or implementation of the European Structural and Investment Funds on how to interpret and apply the EU rules relevant to financial instruments. The Commission services' explanations and interpretations of the rules aim to facilitate programme implementation and to encourage good practice.
- **fi-compass resources** – Resources provided by fi-compass aim to address issues faced by MAs before and during establishment and the implementation of financial instruments, being responsive to their needs at different stages of the financial instrument lifecycle. fi-compass' resources aim to improve the understanding of MAs on the technical requirements and/or provide them with practical advice on the approach to take with regard to particular issues.
- **Other resources** – A variety of networks, organisations and practitioners are also forging ahead with implementing financial instruments or advancing the financial instruments agenda. Their insight and learning can be inspirational to those considering implementing financial instruments or looking to further the effectiveness of financial instrument implementation. You can search all these resources using the facility below.

Factsheet (The European Regional Development Fund (ERDF))

Description:

Financial instruments co-funded by the European Regional Development Fund are a sustainable and efficient way to invest in the growth and development of people and businesses in EU regions and cities. They can support a broad range of development objectives to the benefit of a wide range of recipients with the potential for funds to be reused for further investments.

ABSTRACT

A series of Member State events on financial instruments delivering ESI Funds was opened in Bratislava on 02 October 2015. A total of 25 such national events in nearly all Member States are planned for the next five months.

The seminar aimed to:

- provide Ministers, Managing Authorities and other relevant ESI stakeholders from the public and private sectors with an opportunity to learn more about the advantages, features and suitability of financial instruments in delivering ESI 2014-2020 objectives, with a specific focus on the thematic priorities of the Slovak Republic;
- provide the opportunity to learn about and discuss in depth the technical challenges that the stakeholders are facing as regards the design and set-up of financial instruments;
- offer support for Member States and Managing Authorities by introducing relevant fi-compass learning material.

The seminar in Bratislava featured case studies on financial instruments, the opportunities offered by the 2014-2020 regulatory framework, the advisory products issued by fi-compass to support the design and set-up of financial instruments. In addition, two hands-on oriented workshops were provided.

Seminar: Financial Instruments delivering ESI Funds, Bratislava, 2 October 2015

Bratislava was the stage for the first national fi-compass event, where participants from Slovakia and a few neighbouring countries explored the potential of using financial instruments to deliver 2014-2020 ESI objectives in the local and regional context. Similar seminars will be held in most other Member States during the next five months. The seminar provided the participants with practical information, including case studies and regulatory clarifications, on how financial instruments can help in their efforts to deliver ESI 2014-2020 objectives.

Ivan Lelay, the Slovak State Secretary from the Ministry of Finance welcomed the guests. Three case studies on financial instrument implementation from Slovakia and Poland were presented to provide practical insights for the use of financial instruments.

Martin Pokorný from the Slovak Ministry of Finance highlighted Slovakia's commitment to using financial instruments in 2014-2020 and illustrated the steps towards the set-up of the funds of funds. Two other cases featured experiences from the 2007-2013 period and lessons learned.

Other examples showcased included the Slovak State Housing Development Fund contributions to improved insulation of residential buildings, and a Polish financial instrument of particular relevance for ESI stakeholders's supporting social enterprises.

These examples were complemented by a detailed presentation on the key roadmaps, implementation options and guidance provided by the European Commission. The European Investment Bank described what fi-compass can do to help Member States move forward with ESI financial instruments.

Afternoon sessions featured two workshops on both general features of financial instruments as well as an in-depth analysis of their design. During several roundtable sessions, participants engaged in discussions and exercises with moderators and representatives from the European Commission and the European Investment Bank.

Participants had plenty of networking opportunities, where many discussions focused on the specifics of the Slovak context for implementing financial instruments. Please check our [events page](#) for the full calendar of fi-compass seminars.
